# Stride & Hipchat Announcement

# Atlassian + Slack

Atlassian and Slack have forged a new strategic partnership. We'll be discontinuing Hipchat and Stride, and are providing a migration path to Slack for all our customers.

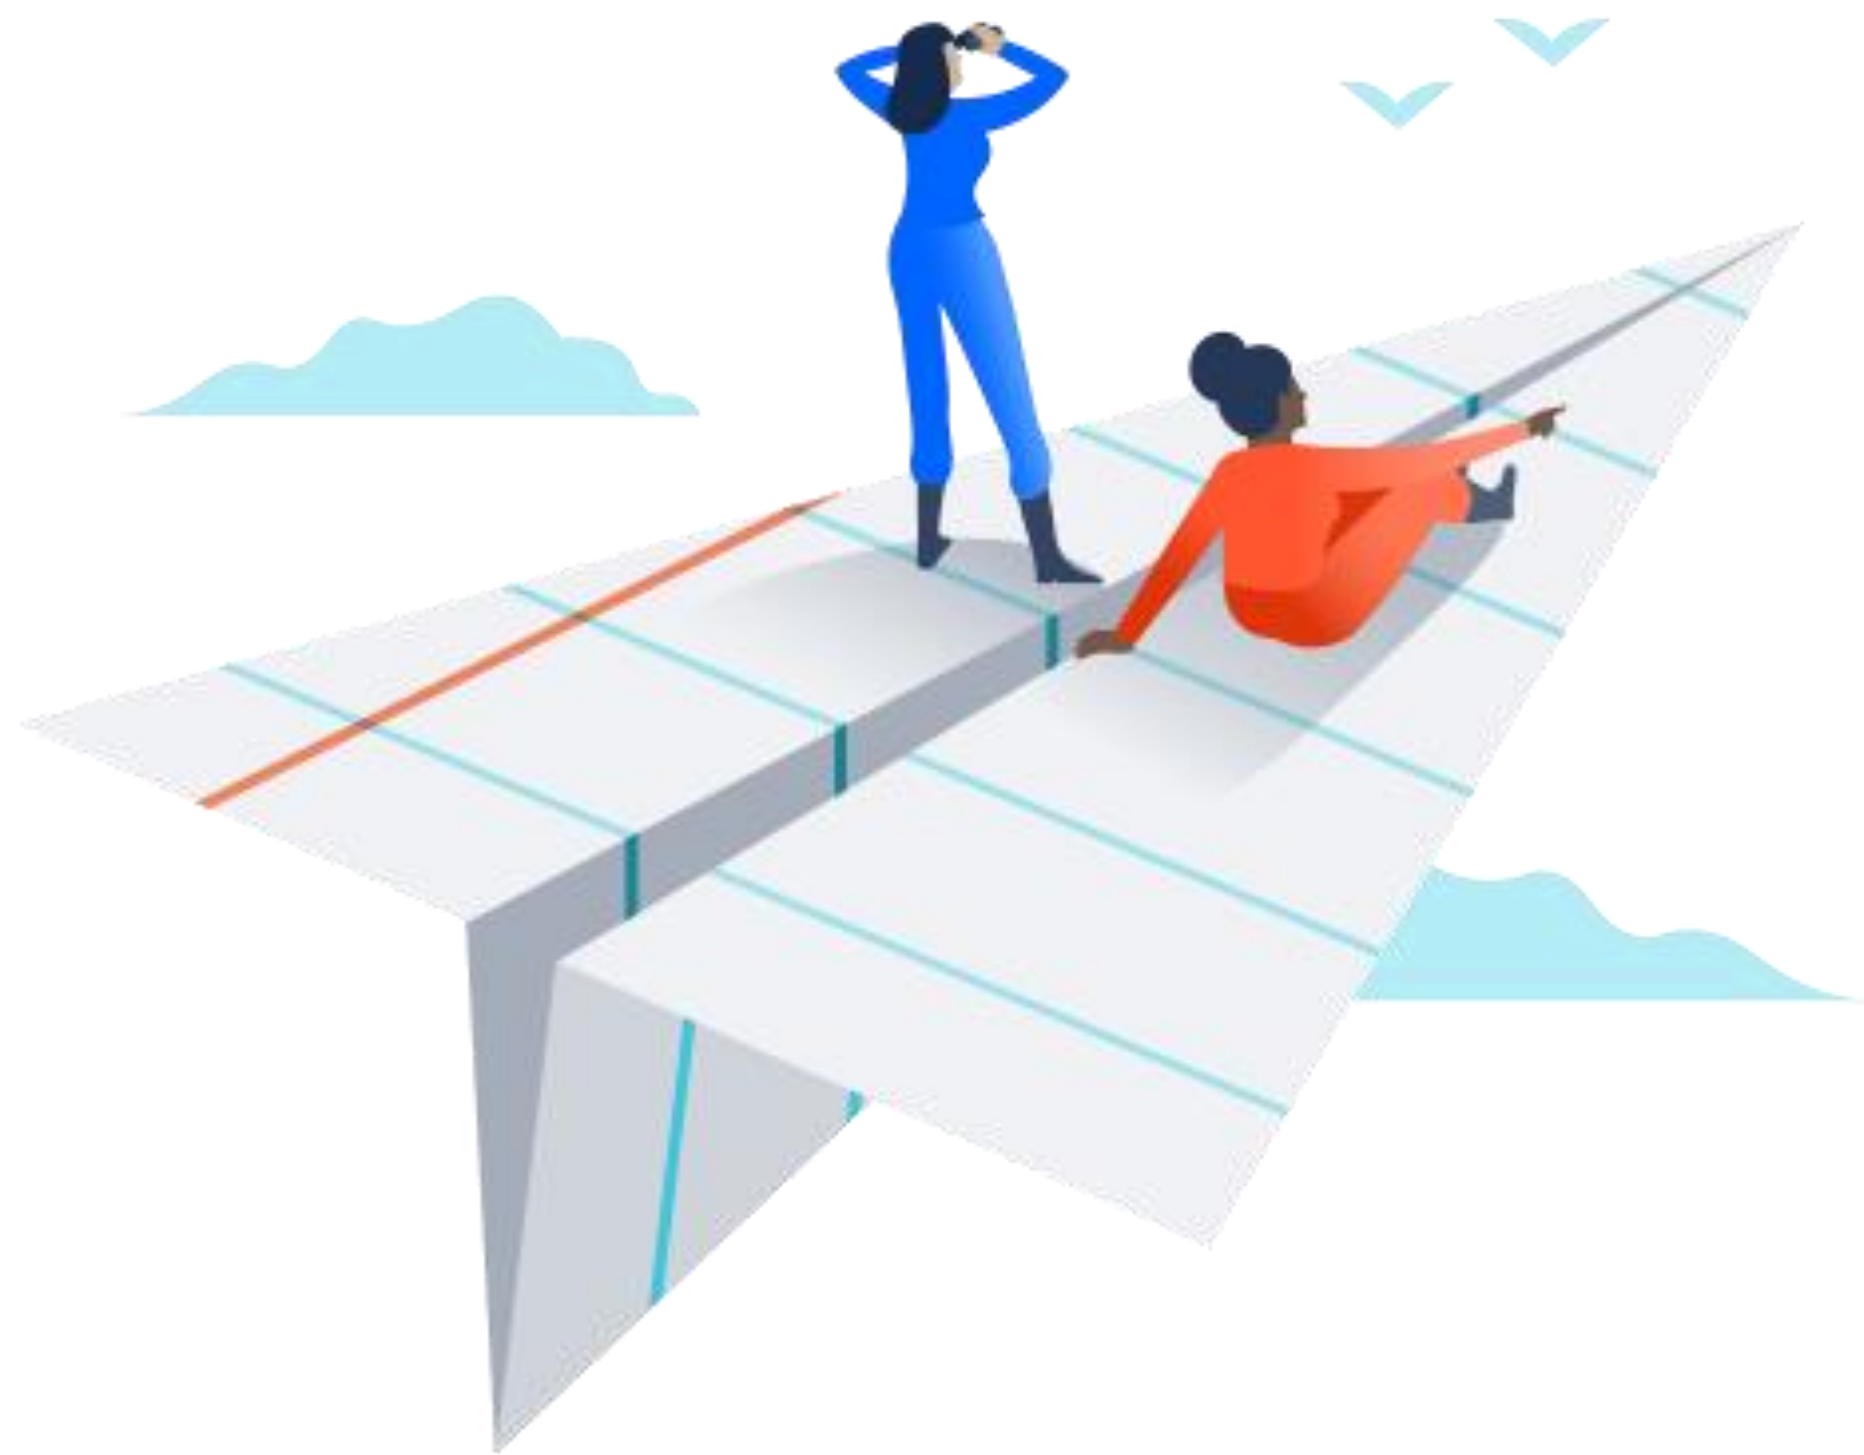

[View announcement](#)

Ready to move to slack?

[Get started](#)

# Why Did We Partner?

- Tighter integrations
- Joint marketing
- New ways of working

# End dates

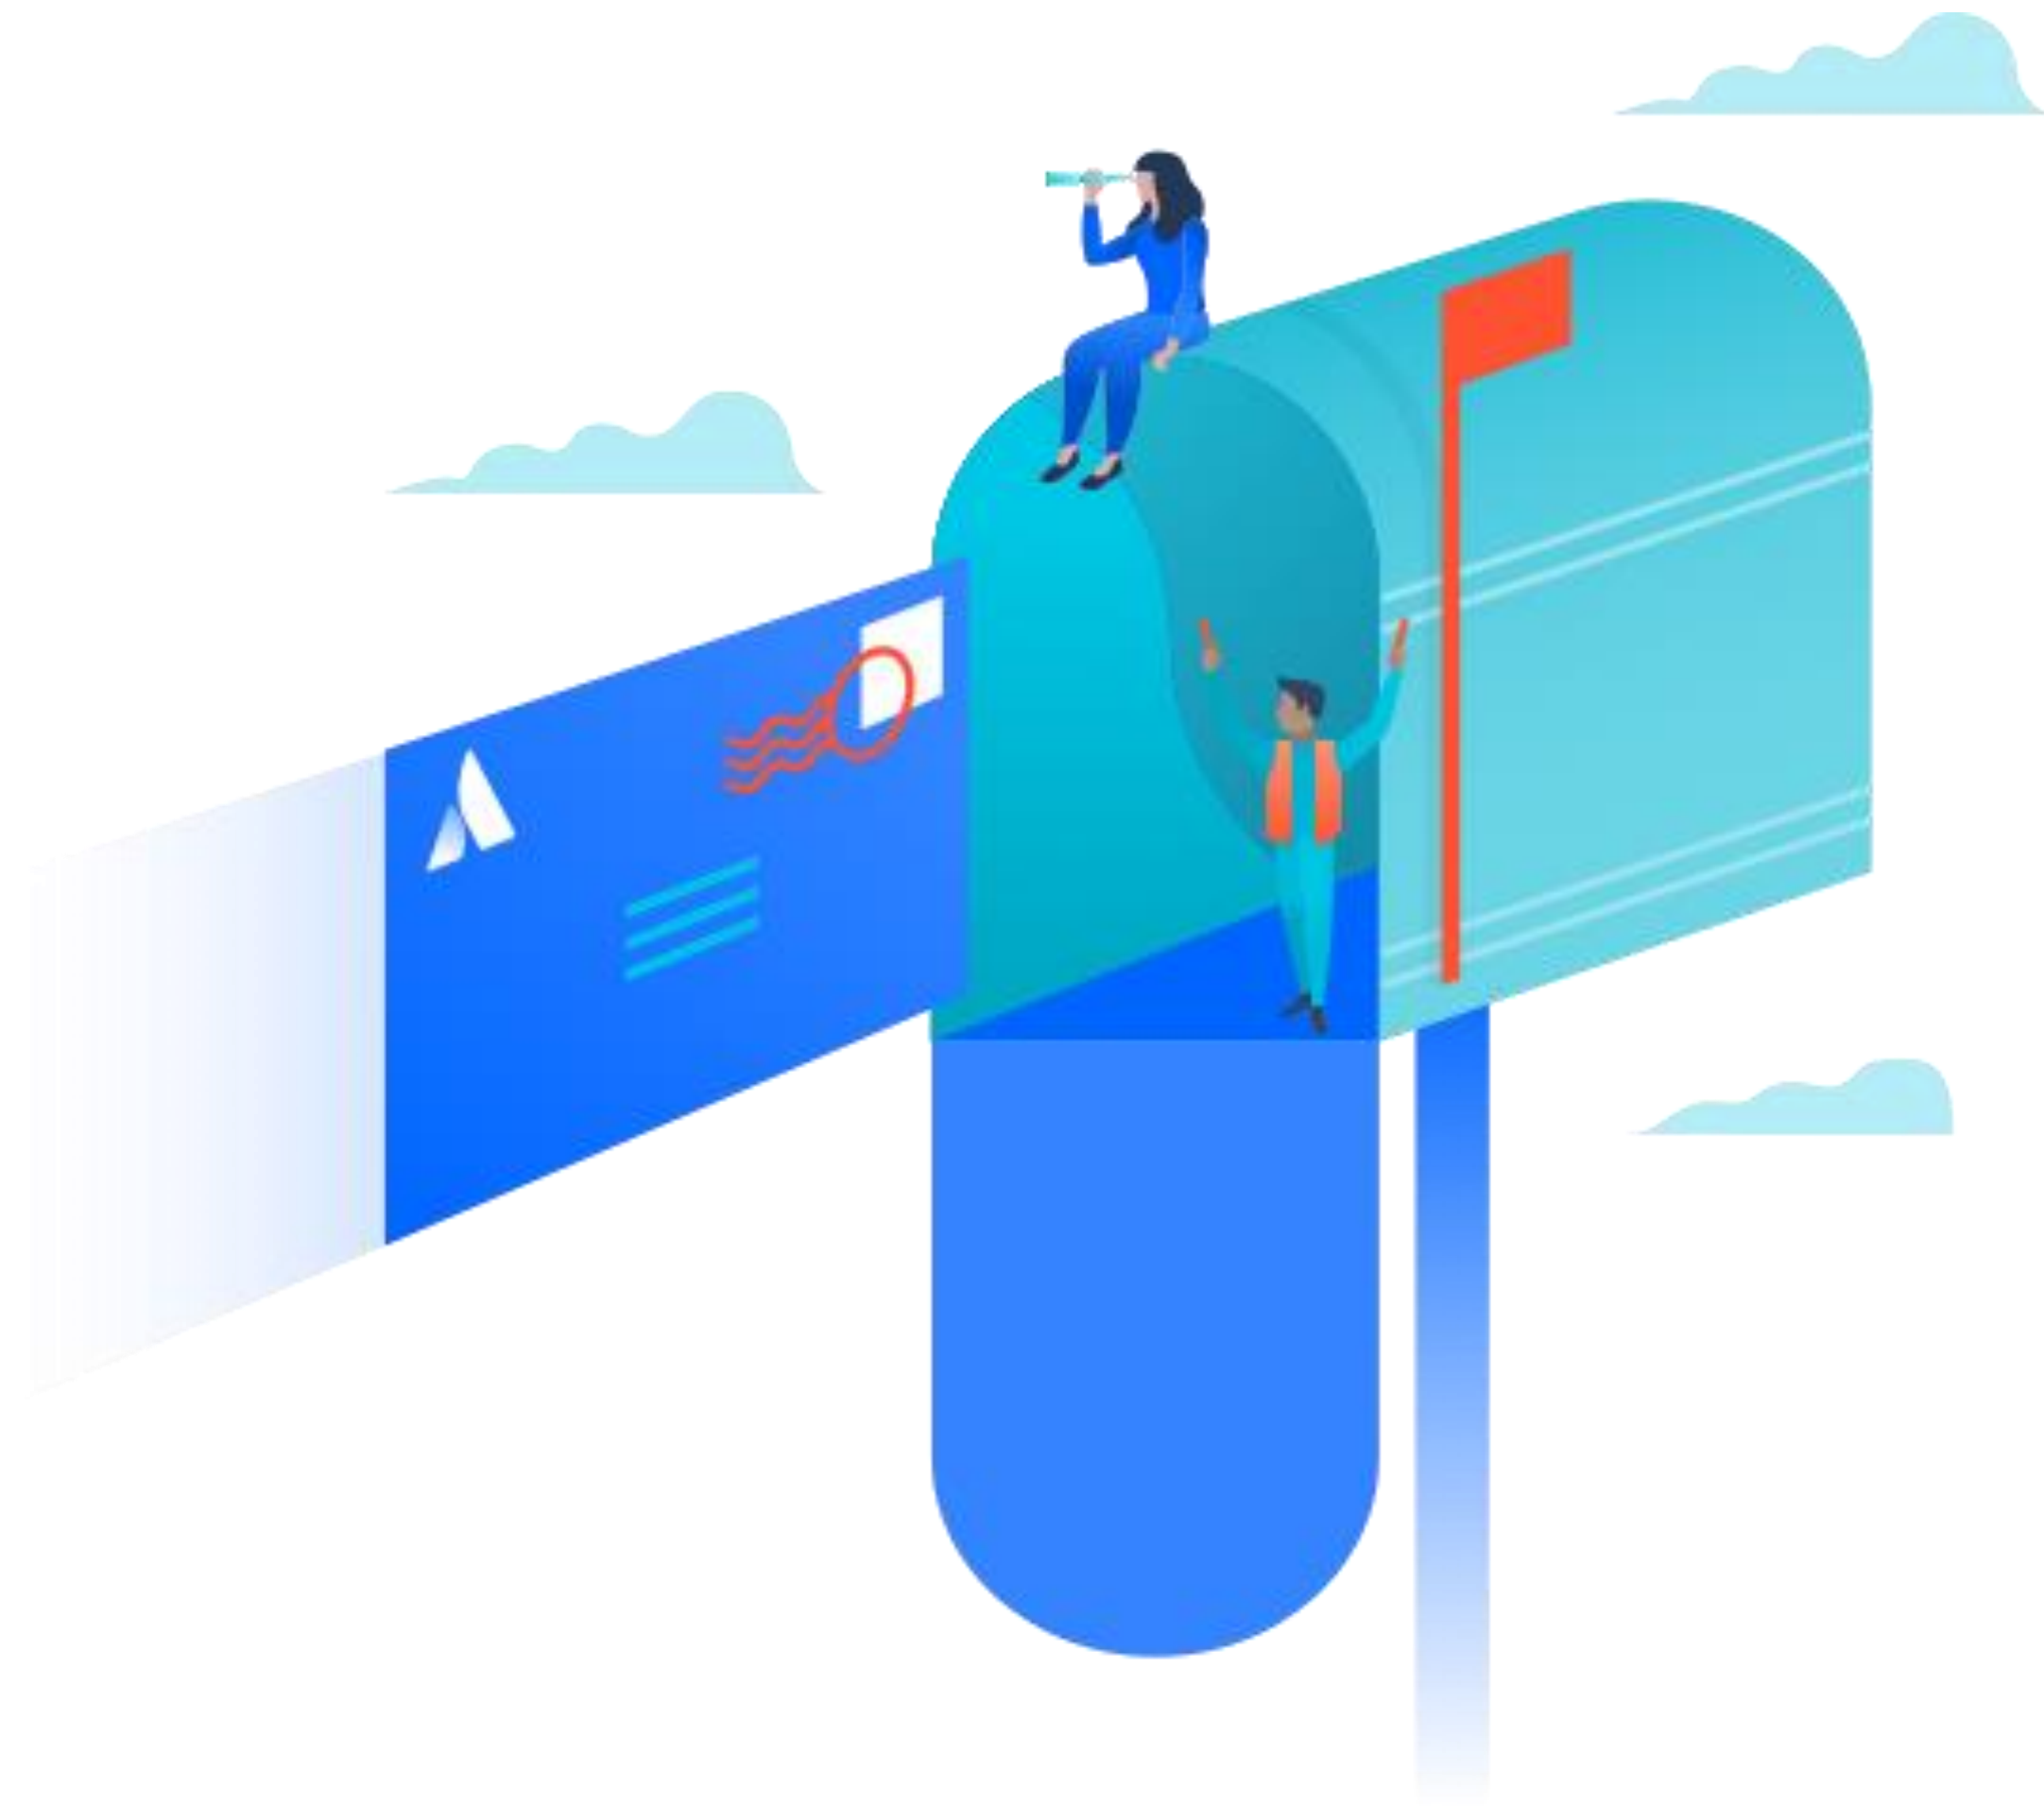

## Stride & Hipchat Cloud

15 Feb 2019

## Hipchat Data Center

26 Jul 2019 or  
until licenses expire\*

# Special promotion

All Stride and Hipchat customers get  
75% off Slack for the next 12 months

**How do customers migrate?**

# General data migration steps

## Sign up for Slack

Try or use the product  
without migrating data

## Export Hipchat Data

## Disclaimer

This is **no** Atlassian official pricing list – it's calculated upon terms commonly used by Atlassian in the past. Please review your individual pricing information you received by mail from Atlassian (included within the official price change announcement).

Atlassian is moving away from offering extended windows for customers to remain on old pricing, and is instead making a practice of giving customers advance notice before pricing changes go into effect.

We still make the option available for customers to renew early if they would like to lock in their current pricing by up to 3 years.

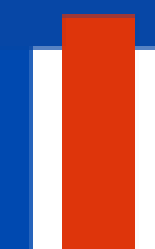

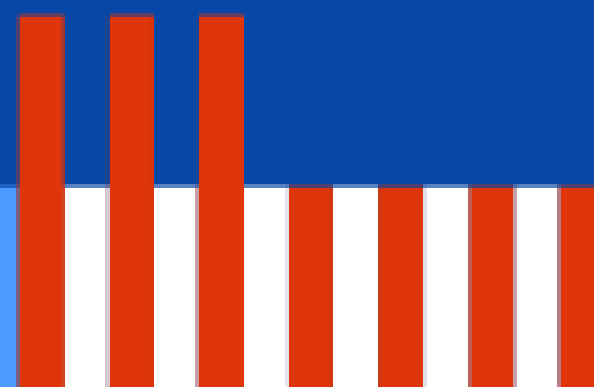

---

**SAFE MONEY - RENEW BEFORE 12 OCT 2018**
